## ITRW 322 Group Project Marking Sheet

		Group ID:		NPG_		
<u>ıvlınimu</u>	um Requirements				MARKS ALLOCATED	
	<u>Description</u>		YES	NO		
1	Does the project group fulfill the member reuirements? (10 - 12 members)					
2	Does the <u>main application:</u> Run on Windows 7, 8, or 10?			1		
	Send text messages via the Internet?					
	Receive text messages via the Internet?					
	Send images via the Internet?					
	Receive images via the Internet and display them?  Send videos via the Internet?				·	
	Receive videos via the Internet and play them?					
	Send audio files via the Internet?					
	Receive audio files via the Internet and play them? Encrypt text messages before sending them?					
	Decrypt text messages before sending them?				ł	
	Store messages and display them when offline?					
2	Send and receive voice notes via the Internet?					
3 4	Is the main application user friendly?  Can the main application connect to the Internet through a proxy using settings supplied by the user?				-	
5	With regards to the user manual:	l			1	
	Is it included?					
	Does it explain how to use the application(s)?  Does it contain short descriptions of how the application(s) work(s)?					
	boes it contain short descriptions of now the application(s) work(s):		YES	NO	·	
			112	140	V50. 50	
	Were all of the minimum requirements met?				YES: 50 NO: 50 + (-5 for each NO above)	
<u>If all mi</u>	nimim requirements were met, complete the following:				MARKS ALLOCATED	
Extra Fe	<u>eatures</u>					
Points	Description		YES	NO	]	
[20]	Was the companion app developed?					
	If YES:			1		
	Does it work?  Can it send and receive messages?				·	
	can to send and receive messages.	GOOD	<->	BAD	1	
					GOOD: 20	
	If YES to all above: what is the general impression of the companion app?				<->: 14 BAD: 10	
Points	Description		YES	NO		
[25]	Does the application have useable, real-time video chat capabilities?					
[23]					YES: 25	
					YES: 25 NO: 0	
[15]	Was a companion app developed? If so, can it send commands to the machine running the primary ap commands include OPEN FILE/FOLDER and RUN BATCH SCRIPT? Can the directory structure of the machine transfer of the machine tr				1	
	Was a companion app developed? If so, can it send commands to the machine running the primary ap commands include OPEN FILE/FOLDER and RUN BATCH SCRIPT? Can the directory structure of the macrunning the primary app be viewed using the comanion app?				NO: 0 YES: 15 NO: 0 YES: 10	
[15] [10]	Was a companion app developed? If so, can it send commands to the machine running the primary ap commands include OPEN FILE/FOLDER and RUN BATCH SCRIPT? Can the directory structure of the macrunning the primary app be viewed using the comanion app?  Does the primary application reduce the size of audio and video files before sending them?				NO: 0  YES: 15  NO: 0  YES: 10  NO: 0	
[10]	Was a companion app developed? If so, can it send commands to the machine running the primary ap commands include OPEN FILE/FOLDER and RUN BATCH SCRIPT? Can the directory structure of the macrunning the primary app be viewed using the comanion app?  Does the primary application reduce the size of audio and video files before sending them?  Does the primary application (and companion app, if developed) appear professionally developed?				NO: 0  YES: 15  NO: 0  YES: 10  NO: 0  YES: 10	
[10] [10]	Was a companion app developed? If so, can it send commands to the machine running the primary ap commands include OPEN FILE/FOLDER and RUN BATCH SCRIPT? Can the directory structure of the macrunning the primary app be viewed using the comanion app?  Does the primary application reduce the size of audio and video files before sending them?  Does the primary application (and companion app, if developed) appear professionally developed? Is it aesthetically pleasing?				NO: 0  YES: 15  NO: 0  YES: 10  NO: 0	
[10] [10]	Was a companion app developed? If so, can it send commands to the machine running the primary ap commands include OPEN FILE/FOLDER and RUN BATCH SCRIPT? Can the directory structure of the macrunning the primary app be viewed using the comanion app?  Does the primary application reduce the size of audio and video files before sending them?  Does the primary application (and companion app, if developed) appear professionally developed?				NO: 0  YES: 15  NO: 0  YES: 10  NO: 0  YES: 10  NO: 0	
[10] [10]	Was a companion app developed? If so, can it send commands to the machine running the primary ap commands include OPEN FILE/FOLDER and RUN BATCH SCRIPT? Can the directory structure of the macrunning the primary app be viewed using the comanion app?  Does the primary application reduce the size of audio and video files before sending them?  Does the primary application (and companion app, if developed) appear professionally developed? Is it aesthetically pleasing?  Can the primary application load and edit contacts saved to a webmail account such as Gmail?				NO: 0  YES: 15  NO: 0  YES: 10  NO: 0  YES: 10  NO: 0  YES: 10  NO: 0  YES: 10  NO: 0  YES: 5  NO: 0	
[10] [10] [10] [5]	Was a companion app developed? If so, can it send commands to the machine running the primary ap commands include OPEN FILE/FOLDER and RUN BATCH SCRIPT? Can the directory structure of the macrunning the primary app be viewed using the comanion app?  Does the primary application reduce the size of audio and video files before sending them?  Does the primary application (and companion app, if developed) appear professionally developed? Is it aesthetically pleasing?  Can the primary application load and edit contacts saved to a webmail account such as Gmail?  Can it add new contacts?	·			NO: 0  YES: 15  NO: 0  YES: 10  NO: 0  YES: 10  NO: 0  YES: 10  NO: 0  YES: 5  NO: 0  YES: 5  NO: 0
